

COVID-19 Response Stakeholder briefing

26 January 2021

COVID-19 Vaccination update: West Sussex

This briefing aims to update you on the roll out of the COVID-19 vaccination programme in West Sussex.

Latest position

We have been stepping up the vaccination programme in phases over recent weeks and we have now done over 200,000 vaccines across Sussex. Official figures will be given later this week but we are on course to vaccinate the top four priority groups across Sussex by mid-February, in line with the national target.

We now have arrangements in place for patients at every GP practice across Sussex, we have a large vaccination service going live from next week, and we have added two more hospital hubs to the six we already had in place. This will significantly increase our ability to vaccinate more people quicker in the coming days and weeks.

Due to the relatively large number of people who are over 80 living in Sussex, we recognise it will take us longer than in some other parts of the country to vaccinate this priority group in particular. However, we are on track to vaccinate all care homes for older people by the end of the week, in line with the national target, and we expect to have vaccinated all over 80 year olds by the beginning of February.

We are working extremely hard to vaccinate as many people as quickly as possible and we are committed to meeting the target of getting the four priority cohorts vaccinated by 15th February.

Latest news: Large vaccination centre goes live for Sussex

A new vaccination centre has opened in Brighton this week to provide eligible people across Sussex greater opportunity to receive their vaccine.

People who are in the top four priority groups currently eligible to receive their vaccination will be invited to get their vaccine at The Brighton Centre. They will book their appointment through a national booking system and will receive their vaccine by teams from Sussex Community NHS Foundation Trust, who are running the service.

The centre gives those who are eligible another option to receive their vaccine, in addition to their local GP-led vaccination services.

While the centre is based in Brighton and Hove, it is available for the wider population across Sussex and beyond.

The national NHS booking service will be writing to eligible people living within 60 miles of the Brighton Centre providing them all the details they need to book an appointment online or over the phone. At present the NHS is ensuring that the over 80s are vaccinated before extending invitations to the next priority age groups.

As more supplies of vaccine become available, large-scale vaccination centres are starting to open across the country, capable of quickly vaccinating large numbers of people.

It is important to note that there will be similar vaccination centres opening in Hampshire, Surrey and Kent, and anyone living in 60 mile radius of these will have the option to choose to go to one of these centres for their vaccination.

Anyone receiving a letter from the national booking service can choose whether to book an appointment at a vaccination centre, or wait until they are contacted by their GP for an appointment at their local vaccination service if that would be more convenient.

Latest news: Care home vaccination on track to meet national target

Older people in care homes are one of the top priority groups for the COVID-19 vaccine due to their high risk from coronavirus.

In line with the national target to have vaccinated all care homes by the end of the month, we have been working tirelessly to vaccinate both residents and staff across Sussex. The initial priority has been care homes for older residents and as of Monday this week, we have vaccinated more than 8,381 residents across a total of 454 care homes for older people (equating to 90 per cent of all of our care homes for older people in Sussex).

Anyone with COVID-19 is unable to receive the vaccine while they are recovering. Some care homes are currently experiencing positive cases of COVID-19 amongst their residents and in these cases the home or those residents who are unwell have not been able to have their vaccination at this point. The vaccination teams have a clear schedule in place and will be revisiting them 28 days following the positive test.

In Sussex, we have one of the highest numbers of nursing and care homes per capita across the country and so this is a significant undertaking but thanks to the dedication and commitment of our vaccination teams from GP practice teams and Sussex Community NHS Foundation Trust we are making excellent progress towards achieving the government target.

In summary: the COVID-19 vaccination programme in West Sussex

GP-led vaccination services

All patients registered with a GP in West Sussex are now covered by an active GP-led local vaccination services and will be contacted when it is their turn to receive the vaccine.

GP practices have been working together in local groups to arrange the vaccination of their patients, usually at one shared location.

The GP led vaccination services for West Sussex are currently:

Adur and Worthing

Lancing Parish Hall, for patients at:

- Ball Tree Surgery
- New Pond Row Surgery
- Orchard Surgery

Northbourne Medical Centre, for patients at:

- Harbour View Healthcare
- Northbourne Medical Centre
- The Manor Practice

Strand Medical Group, for patients at:

- Cornerway's Surgery
- Selden Medical Group
- Worthing Medical Group

Durrington Health Centre, for patients at:

- Barn Surgery
- Lime Tree Surgery (Phoenix)

St Lawrence Surgery, for patients at:

- Broadwater Medical Centre
- St Lawrence Surgery
- Victoria Road Surgery

Arun

Angmering Community Centre, for patients at:

- Coppice Surgery
- Fitzalan Medical Group

Bognor Medical Centre, for patients at:

- Arundel Surgery
- Avisford Medical Group
- Bersted Green Surgery
- Bognor Medical Centre
- Flansham Park Health Centre
- Grove House Surgery
- Maywood Health Care Centre
- The Croft Surgery
- West Meads Surgery

Westcourt Medical Centre, for patients at:

- Park Surgery
- Willow Green Surgery
- Westcourt Medical Centre

Chichester district

The Selsey Centre and Tangmere Village Centre, for patients at:

- Cathedral Medical Group
- Langley House Surgery
- Lavant Road Surgery
- Parklands Surgery
- Selsey Medical Practice
- Southbourne Surgery
- Tangmere Medical Centre

- Witterings Medical Centre

Pulborough Medical Group, for patients at:

- Pulborough Medical Group
- Loxwood

Riverbank Medical Centre, for patients at:

- Petworth Surgery
- Riverbank Medical Centre

Crawley district

Leacroft Surgery, for patients at:

- Bridge Medical Centre
- Ifield Medical Practice
- Langley Corner Surgery
- Leacroft Medical Practice
- Southgate Medical Group

Saxonbrook Medical Centre, for patients at:

- Bewbush Medical Centre
- Coachmans Medical Practice
- Furnace Green Surgery
- Gossops Green Medical Centre
- Saxonbrook Medical Centre

Poundhill Medical Practice, for patients at:

- Poundhill Medical Practice
- Woodlands & Clerklands Partnership

Horsham district

Christ's Hospital Blue Coats, for patients at:

- Cowfold Surgery
- Rudgwick Medical Centre
- The Courtyard Surgery
- Village Surgery

Park Surgery, for patients at:

- Holbrook Surgery
- Orchard Surgery
- Park Surgery
- Riverside Surgery

The Glebe Surgery, for patients at:

- Billingshurst Surgery
- Henfield Medical Practice
- Steyning Health Centre
- The Glebe Surgery

Mid Sussex district

Clair Hall, Haywards Heath, for patients in Haywards Health at:

- Dophins Practice

- Newtons Practice
- Northlands Wood Surgery
- Cuckfield Medical Centre
- Lindfield Medical Centre
- Ouse Valley Practice

Clair Hall, Haywards Heath, for patients in Burgess Hill at::

- Brow Medical Centre
- Meadows Surgery
- Mid Sussex Health Care
- Park View Health Partnership
- Silverdale Practice

Meridian Hall, East Grinstead, for patients at:

- Crawley Down Health Centre
- Judges Close Surgery
- Moatfield Surgery
- Ship Street Surgery

How the GP led vaccination services are working

Each GP led vaccination service is receiving deliveries of vaccine from the national supply to provide the first dose vaccination to their patients.

The Government guidance on the timing of the second dose has been updated and is now over a 12 week period. All of our vaccination services are following this guidance and inviting their patients back for their second dose in the 12 week period.

Appointments are being offered to patients as soon as vaccine deliveries are confirmed each week.

The regularity of when vaccines are given depend largely on the supply of vaccine. As a result GP led services are not running every day of the week; most are running specific days in line with the availability of the vaccine. This does not mean that GP led services are permanently closed; as soon as further supplies are received the service will resume vaccinations for its patients.

Getting to a vaccination appointment

We recognise that some people will have to travel further than others to get their vaccination. During the current restrictions, family and friends of elderly patients are permitted to take them to their COVID-19 vaccine appointment under the exemption of 'providing care for the vulnerable'. If this is not possible, then you may be able to access community transport. Other options are also being explored to support residents travelling to their vaccination appointment if they cannot ask a friend or family member for help. Please ask at the time of booking what local arrangements are in place.

Hospital hubs

There are now eight hospital hub vaccination services in Sussex focused on the vaccination of health and care staff, including care home staff. They are at:

- Conquest Hospital, Hastings
- Eastbourne District General Hospital

- Mill View Hospital, Hove
- Princess Royal Hospital, Haywards Heath
- Queen Victoria Hospital, East Grinstead
- Royal Sussex County Hospital, Brighton
- St Richards Hospital, Chichester
- Worthing Hospital

Vaccinations in care homes

A roving service is working to continue the roll out of the vaccine to all care homes across West Sussex.

Vaccines are being delivered through GP practices in their local Primary Care Networks (PCN) and Sussex Community NHS Foundation Trust (SCFT).

Anyone with COVID-19 is unable to receive the vaccine while they are recovering. Some care homes are currently experiencing positive cases of COVID-19 amongst their residents and in these cases the home or those residents who are unwell have not been able to have their vaccination at this point. The vaccination teams have a clear schedule in place and will be revisiting them 28 days following the positive test.

Frequently Asked Questions

We are continuing to receive a large number of enquiries in relation to the COVID-19 vaccination programme.

We are regularly updating our FAQs on the [Sussex Health and Care Partnership website](#), to address the questions and queries we are receiving.

A summary of the key questions this week is below.

Key questions for West Sussex

Why is my local vaccination service not open all week?

All of our GP led or local vaccination services are working extremely hard to vaccinate as many people as quickly as possible with the vaccines they have available, and we expect all those in the top four priority groups to be vaccinated by mid-February.

The days that these services are open largely depends on the supply of vaccine from the national stocks. So not running the vaccination service everyday isn't unusual at this time.

Most local vaccination services are receiving confirmation of their delivery, then working to invite in people for that set number of vaccines, and then will open for dedicated days to use up their vaccine before it expires (for the Pfizer vaccine this is usually within a three day window).

GP practices are also working really hard at the moment to maintain both general medical services and the vaccination programme, and so will have teams back in their surgeries to ensure that can continue to provide the day to day care needed by their patients.

So if your local vaccination service doesn't appear to be vaccinating one day, they will be back in their GP practices, providing care to patients, making appointments for their next sessions, and getting ready for when the service opens that week.

I am housebound when will I get my vaccination?

We are now starting to vaccinate those in the first four priority groups for the COVID-19 vaccination who are housebound and cannot access vaccination through local vaccination services or the vaccination centre. This is being supported by the GP practices in their Primary Care Networks and in some cases by Sussex Community NHS Foundation Trust. We expect those who are housebound and in the initial priority groups to have heard in the next two weeks about when an appointment will be available for a home visit. Those contacts will be made directly by GP practices.

We remain on track to vaccinate all those in the top four priority cohorts by mid-February.

What is the difference between the service at Brighton Centre and the GP led services in West Sussex?

The Brighton Centre is a large vaccination centre, and serves the wider population across Sussex. Anyone within a 60 mile radius of a vaccination centre will be invited to book an appointment via the national booking system.

GP led vaccination services provide appointments for patients at specific GP practices.

Vaccination centres also differ from GP-led services in how appointments are arranged. While GPs invite their patients to get vaccinated at their local vaccination service, appointments at the vaccination centres are made through the national booking service.

At present both are focused on the vaccination of the first four priority groups, with a focus remaining on the over 80s, with the over 70s and clinically extremely vulnerable to follow shortly.

How do I get an appointment at the Brighton Centre, or any of the other vaccination centres?

The national NHS booking service will be writing to eligible people, living within 60 miles of a vaccination centre, inviting them to book an appointment at the centre online or over the phone. The letter contains all the details people will need to book their appointment.

At present eligible people prioritised by the Joint Committee on Vaccination and Immunisation (JCVI) are:

- people aged 80 and over

- people who live or work in care homes for older adults
- frontline health and social care workers

While the over 80s remain the priority, vaccinations can also now be offered to people aged over 70 and the clinically extremely vulnerable, to ensure that all vaccination appointment slots are filled.

Can I attend any large vaccination centre in the country?

Letters are being sent by the national team to anyone living within 60 miles of a large vaccination centre or a local pharmacy service.

For these services you can book by calling a dedicated phone line or visiting the national booking system online.

At this point you will be able to consider all available vaccination centres and pharmacy services with the radius of your postcode. There are no restrictions to people moving across boundaries in order to receive your vaccination ie you are able to book an appointment with a Hampshire or Surrey service if these are more convenient for you.
